

Surebond Everseal SB-190

1 (800) 766-5291
1 (717) 737-4398

10.3 fl. oz. Tube

Bonds:

5-8 Snojax II or Icejax II

7-10 SnoBlox Ace

20-25 SnoBlox Deuce, Icejax I, or SnowBreaker

Made in USA

Official Adhesive for SnoBlox, Snojax, Icejax and Snowbreaker. Requires 28 days or (672 Hours) at 50 Degrees (F) or above to achieve full cure. Temperatures below 40 Degrees (F) will delay cure time, until temperatures reach 50 Degrees (F) or above to completely cure. SureBond SB-190 provides improved life and durability, and better impact strength and has been approved for use in prisons to secure fixtures. SureBond bonds with concrete, finished metals, painted metals, plastics, fiberglass, pipe, conduit, FRP-plywood and composites, while eliminating costly fasteners, rattles and leaks. Tensile Strength: 2000 PSI.

One tube of Surebond can adhere:

5 - 8 Snojax II or Icejax II

7 - 10 SnoBlox Ace

20 - 25 SnoBlox Deuce, Icejax I, or SnowBreaker
